## LOCAL AND OTHERWISE.

Travel has been brisk both ways on the  
Milford road of late.

W. S. Godbe and wife were up several  
days this week from Bullionville.

John Roeder returned from a trip to his  
ranch in Pahrangat Valley last Friday.

J. Eisenmann returned Tuesday evening  
from a short visit to DeLamar and Pahrangat  
Valley.

A stock of Christmas goods embracing  
toilet articles, toys, etc., is displayed at the  
post office store.

A reasonable amount of sport can be found  
at Spring Valley. Ducks are beginning to  
come in.

The town was lively on the first days of  
the week through litigants and jurors at-  
tending court.

The military company which was recently  
organized in Battle Mountain has at present  
twenty members.

The former residence of J. C. Lynch on  
McCannon street is being torn down and will  
be removed to DeLamar.

The bills allowed by the County Com-  
missioners at their meeting held last Mon-  
day appears under New To-day.

If you want anything in the line of holi-  
day goods, call at Dooley's. Everything  
is marked down lower than ever.

Whist parties seem to be the principal  
evening amusements about town and many  
hours are pleasantly spent in this way.

The talk given by the Silver State on  
Thanksgiving eve, in honor of the victory  
achieved by the Silver Party, was well at-  
tended and a very pleasant affair.

The White Pine grand jury has indicted  
P. T. Dolan for the murder of Patrick  
Green at Cherry Creek on the 7th of Novem-  
ber. His trial is set for December 10th.

The DeLamar stage did a rushing busi-  
ness the past week, making extra trips and  
carrying a full load of passengers every day.

According to Foster's predictions a snow  
storm struck us on the Tuesday night, and  
this afternoon sleighs were out. The storm  
seems to be a general one.

DeLamar was well represented here this  
week, a number being summoned to appear  
on the jury and others as witnesses in the  
various cases that came up.

The testimony being given in the case of  
the strikers on trial at Carson is the same  
as that given at the former trial. A jury  
was secured without trouble.—Silver State.

The Spring Valley school closes to-morrow  
after a term of nine months. An appropri-  
ate programme has been prepared for the  
day, to conclude with a dance in the even-  
ing.

Hon. J. H. MacMillan came in from  
Ogden on Sunday's stage to attend the Dis-  
trict Court, principally as attorney for de-  
fendants in the case of Vietti vs. Nesbitt  
Bros.

Lem Allen of Churchill is said to be a  
candidate for Speaker of the Assembly.  
This is the sixth time that he has been  
elected to the Legislature, and he proposes  
to make a contest for the Speakership.

Taxes—became delinquent last Monday  
night. The delinquent list this year prom-  
ises to be a very lengthy one on account of  
the hard times and the depressed condition  
of the country in general during the past  
year.

Miss Maud Alley of the Eagle Valley  
school, and Miss Annie Clinton of the Spring  
Valley school, having spent their Thank-  
sgiving holiday in town went out Sunday to  
resume their stay in their respective school  
rooms.

County Assessor H. E. Freudenthal left  
Tuesday for Keystone, Vanderbilt and  
Crescent on official business. Miss Annie  
Arman accompanied him as far as the Vegas  
ranch where she goes on a short visit to  
friends.

Prof. Foster says that the next storm  
will reach the Pacific Coast about the  
9th and cross the Western mountains by the  
close of the 10th. The central portions of  
the United States are promised a warm De-  
cember and the balance of the country an  
average temperature.

The vote in Lincoln County in favor  
electing United States Senators  
by direct vote of the people was  
397, and 17 against the proposition. The  
vote in other counties was about the same  
ratio, and shows that the people want to  
elect Senators themselves.

A. Neuschwander, who has the borax  
plant thirty miles south of here, is produc-  
ing about twenty tons of refined borax a  
month. The marsh is proving a highly re-  
munerative business. Borax is worth seven  
cents a pound, making the monthly product  
of the plant \$30,000.—Vanderbilt News.

The friends of silver in Congress should  
signalize the beginning of the coming session  
by a vigorous and concerted movement in  
favor of the enactment of a law restoring  
silver to a status in our money which it oc-  
cupied from the foundation of the Govern-  
ment until 1873. The re-opening of the  
mines to the free coinage of silver would be  
the shortest, surest and most desirable way  
of restoring prosperity to this country.—  
Virginia Enterprise.

Silver Star district, Esmeralda county,  
continues to hold its own as a gold producer.  
Six hundred tons of ore that will mill above  
\$30 to the ton is on the dumps of the differ-  
ent claims. The five-stamp mill (on account  
of water being short run but twelve hours  
per diem) has turned out \$15,000 in the two  
months it has been running. Twenty-five  
men are working for wages in the district  
and thirty or more are leasers.—Mason  
Valley Tidings.

The most important meeting in the history  
of the People's Party has been called for at  
St. Louis on December 28th and 29th, to  
consider the National situation. Mem-  
bers of the National committee, state chair-  
men, Representatives and Senators and  
other leaders will be present. At this meet-  
ing will be shaped the issue on which the  
party must rely for success in 1896.

At Virginia City on the 2nd, another  
sharp shock of earthquake was experienced  
by that place, followed at intervals with  
slight tremors. It is reported that the first  
shock was one of the heaviest of the late  
series. They are getting to be of such fre-  
quent occurrence, however, that the Com-  
stockers pay but little attention to them.—  
State Journal.

Notwithstanding the alleged success which  
attended the sale of \$50,000,000 of bonds  
last week, speculation remained inert and  
featureless in Wall street and the sales have  
been exceedingly small. There will be no  
recovery of business activity either in Wall  
Street or anywhere else in this country until  
silver is fully restored to its old place and  
value in our coinage.

Some boys while playing in the northwest  
suburbs of Carson, found paymaster Mills' cash  
box that was taken from the express car  
several months ago. The lock was  
broken and the lid cut open. It is believed  
that the box had been placed there recently.  
Mr. Mills will keep the box as a souvenir.—Reno Journal.

The inaugural ball to be given in Carson  
When Governor Jones and other State  
officers are installed in their respective  
offices in January next, promises to be the  
most elaborate affair and brilliant assemblage  
ever witnessed.—Ex.

The Ohio & Mountain Lion mine, near  
Henly, Siskiyou county, California, has been  
sold to Salt Lake men for \$50,000. The  
first payment of \$25,000 was made last  
week.—Mining & Scientific Press.

An Austin man named Gates fell into an  
abandoned shaft fifty feet deep and was  
hailed out uninjured.

The Mason Valley Tidings of Yerington  
has suspended publication.

## DISTRICT COURT.

On Monday at ten o'clock a. m. the trial  
jury of thirty-five responded to roll call.  
The first case taken up was that of James  
Murphy vs. the Reed Mill & Mining Co.,  
tried by a jury of eight. The case resulted  
from work done by plaintiff on the Reed  
Tunnel at Helene two years ago. A verdict  
was rendered for the plaintiff with costs.

In the afternoon the case of Livingston &  
Co., vs. J. J. Manning and John E. Fergu-  
son was tried before a jury of twelve. The  
action was based on a draft given by  
Manning in December 1893, to S. E. Wer-  
theimer on John E. Ferguson, and accepted  
by the latter and indorsed to Livingston &  
Co. before maturity. Defendants attempted  
to prove that the consideration of the draft  
was money lost at gaming and that the draft  
was therefore void. The testimony was  
ruled out and judgment rendered for the  
plaintiffs with interest and costs amounting  
in all to \$452.50.

Tuesday the case of Geo. Sawyer vs. H.  
A. Cohen, Mrs. Julia McFadden and J.  
Nesbitt & Bro., brought to recover \$5,000  
for legal services rendered in connection  
with the Jim Crow mine was tried before a  
jury. The case occupied all day, the parties  
making separate defenses, and was  
submitted to the jury about midnight, who,  
after being out an hour returned a verdict  
of \$1000 against J. Nesbitt & Bro. and re-  
leased the other defendants.

Yesterday and to-day the case of John  
Vietti vs. Nesbitt Bros. brought to recover  
for ore shipped to the mill from the Jim  
Crow mine last winter, and involving \$30,  
500, has been before the court sitting with-  
out a jury. A decision in this will prob-  
ably be rendered after the Judge reaches  
home.

The only remaining case is that of C.  
Lytell et al. of Eagle Valley vs. Jos. Com-  
erilrh, a water case, which will come up to-  
morrow.

Thanksgiving Ball.  
The candidates ball given at Thompson's  
Opera House Thanksgiving night, by the  
winning candidates, was a grand success in  
every particular. There were fully 100  
present and outside places namely, Spring  
and Eagle Valleys, Panaca and DeLamar  
were well represented. Dancing commenced  
about 9 o'clock and was kept up steadily  
until 12, when all adjourned to Dick's  
restaurant for supper. After supper every-  
one returned to the hall and dancing was  
continued until 5:30 Friday morning, at  
which time all present retired, pronouncing  
it one of the best affairs of the kind that has  
been given here in years.

## DE LAMAR DOTS.

The two story dwelling house near the  
mill is nearly completed.

The frame work of the ore house at the  
DeLamar Co's mill is finished.

J. Eisenmann passed through the first of  
the week on his return to Pioche from Hiko.

Mrs. DeFreix and daughter Millie left  
for their home in Pioche on Tuesday's stage.

J. Nesbitt & Bro. have six men at work  
on the water ditch and expect to have it  
completed soon.

It is reported that a very rich strike has  
been made in the Gold Cup, but its extent  
was not ascertained.

The cable for the tramway has arrived.  
The tramway will be used to carry ore from  
the Company's mines to the mill.

A dwelling house is being erected for Dr.  
Bjornson, and as soon as it is completed he  
will move his family from Pioche.

Last Tuesday P. Fitzgerald was arrested  
on a warrant sworn out by Dan Roeder for  
fraudulently obtaining \$80 on a check which  
had been drawn for \$8. Fitzgerald refund-  
ed \$40 of the amount, and gave his note  
sufficient to cover the balance and costs.—  
Lode.

Supt. Maynard has discontinued work in  
the Reed tunnel for the present. A vein of  
low grade gold quartz was discovered thirty  
feet west of and at the end of the old tunnel  
workings. The next work will be in laying  
a car track and developing the new find.—

by a foot-pad. Gerriah threw them up, and  
in doing so his pistol went along, and when  
on a level with the foot-pad's breast he  
fired. The foot-pad staggered off a little  
way and then shot at Gerriah and disap-

The doctors have announced a new  
disease, known as "elelevator sickness," as  
the remedy is to walk up seven or more

The Horn Silver mine at Frisco, Utah, is  
again breaking records of production, the  
heaviest consignment of concentrates ever  
turned out by the new mill was shipped to  
the Germania. It consisted of nine carloads  
of the product of the plant.—Ex.

In the case of the strikers now on trial in  
San Francisco their attorney proposes to  
summons President Cleveland to the witness

A story is told on a young man of a nei-  
ghoring county that might have been serious  
instead of ludicrous. He paid a visit to his  
best girl and while getting out of his buggy  
both the suspender buttons on the rear of his  
pants gave way. To prevent em-  
barassment a couple of matches were sub-  
stituted for the treacherous buttons, and  
all went well until by friction against the  
back of the chair the matches became  
ignited. A conflagration was narrowly  
averted, and the young man is not over his  
fright yet.—Ex.

In President Cleveland's speech at the  
launch of the St. Louis recently he said that  
he was so anxious to see the American ocean  
carrying trade transferred to vessels flying  
the American flag that he would consent to  
the register of foreign-built vessels. He  
did not think it was important where a  
vessel was built so that it carried the  
American flag at its masthead. Doubtless  
the President expected to be applauded for  
his patriotic expression, but as the audience  
had assembled to celebrate the construction  
of an American vessel, not a British vessel  
flying the American flag, the silence that  
followed this declaration was both visible  
and tangible. But the speech of Mr. Cleve-  
land was doubtless intended to help the  
Fithian free-ship bill through Congress.  
That bill proposes to do precisely what the  
President declares that he is willing to see  
done. Under it there will be no more ships  
like the St. Louis built in this country until  
our miners and mechanics will consent to  
work for British wages.—S. F. Call.
